

Our Sustainability Goals

Amid the rising importance of responses to the issues surrounding sustainability, such as the social and global environment problems, to further clarify the image of sustainability that the Daiken Group aims for and enhance our initiatives in corporate management, we have revised and evolved the existing CSR basic policy and formulated the Daiken sustainability basic policy in June 2022. By increasing the linkage between the contribution to the sustainability of society and the global environment and the sustainability of our business more than ever, we will aim to form a virtuous cycle and sustainable corporate value improvement.

Daiken Sustainability Basic Policy

The Daiken Group will bring new value and smiles to the faces of our stakeholders, including employees, by contributing to the development of a prosperous and sustainable society and environment based on the group corporate philosophy. Furthermore, we aim to establish a solid management foundation for the long-term growth of the Daiken Group.

1 Contribute to the development of a sustainable society, global environment, and the economy

We will continuously review all activities and promote reforms as we contribute to the development of a prosperous and sustainable society and the global environment, while improving business sustainability.

2 Pursue sustainability as a business

The Daiken Group will maintain and even enhance its strength to build value, an essential driving force for transformation, by maximizing the value of human capital through enhanced job satisfaction and employee well-being, while strengthening engagement with stakeholders.

3 Aim to enhance business value in a sustainable manner

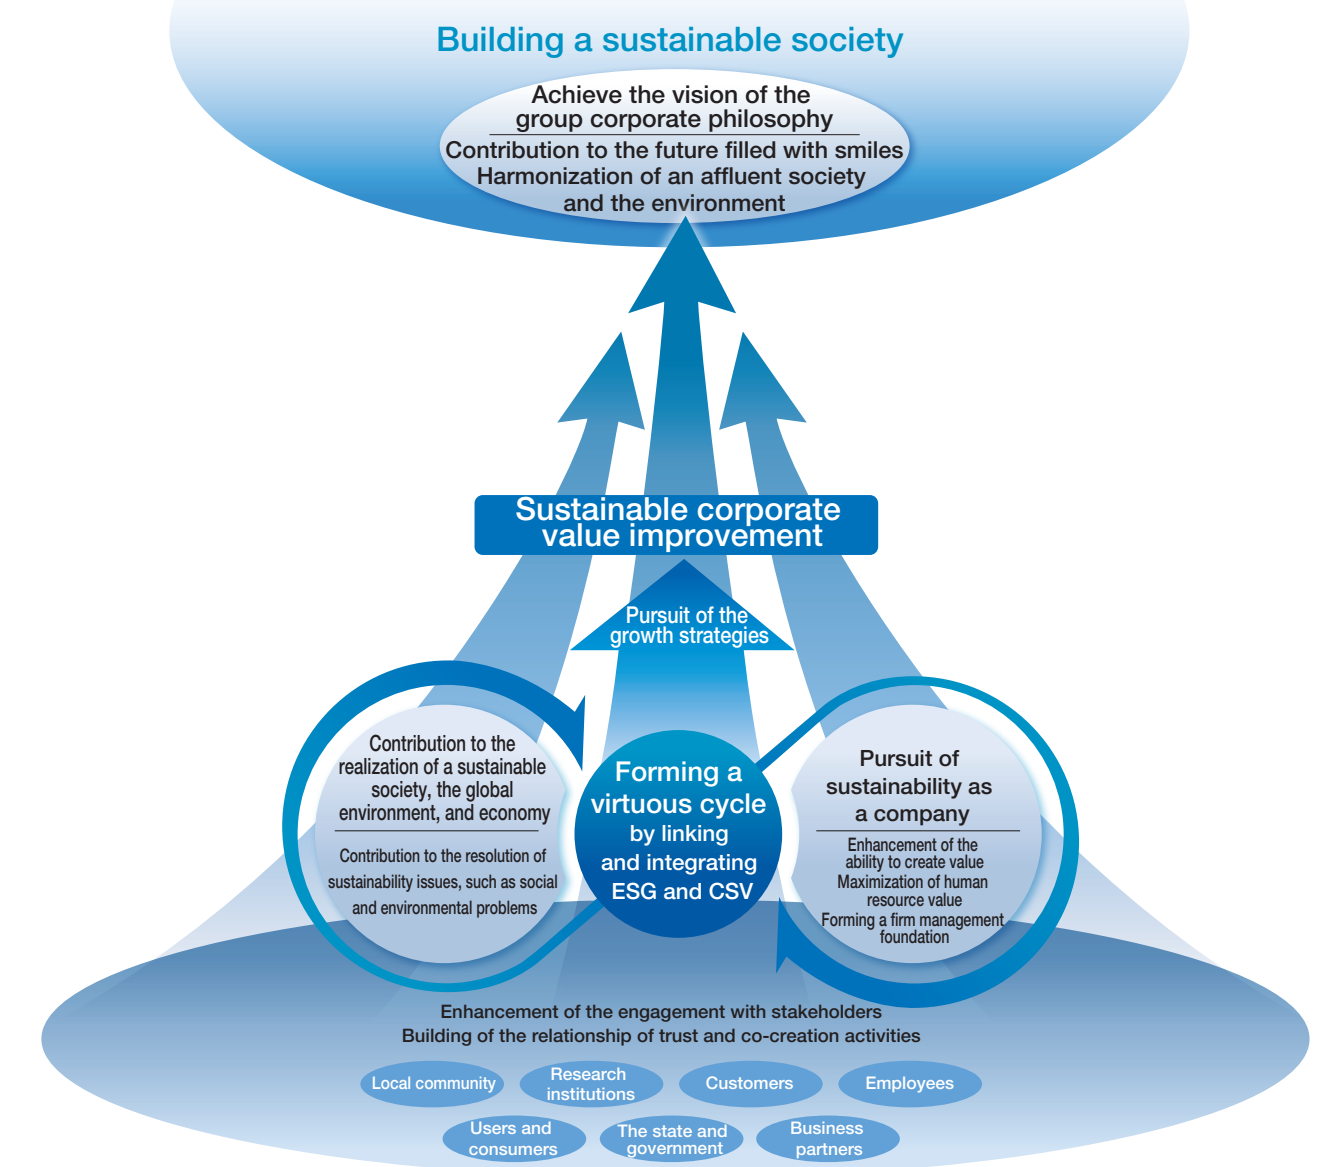

The Daiken Group aims to enhance corporate value in a sustainable manner through the two virtuous cycles of its contribution to a sustainable society, the global environment, and the economy and the pursuit of sustainability as a business.

Structure to promote sustainability

The Daiken Group has established the Sustainability Promotion Committee in which the president serves as the chairperson and developed the structure to promote sustainability on a company-wide basis since fiscal 2023.
